

## Miniature normally closed solenoid valve

- Port size ¼" NPT
- Works for both liquid and gas
- Closed: 0V
- Opened: 5V
- Weight: 6.9oz
- Speed from closed to opened: ~100ms
- Maximum operating pressure differential: 344.738 kPa (50 PSI)
- Body: 304 stainless steel
- Wetted materials: 304 stainless steel / Teflon Plunger
- Max power consumption 6 Watts (1.2 Amps)

### Typical applications

- Medical Equipment
- Laboratory Equipment
- Food Processing Equipment

This device may get warm during normal operation.

### 2-WAY NORMALLY CLOSED
